translation of paul eluard s masterpiece capital of pain from 1926

capital of pain comprising many of the poems written between 1921 and 1926 is widely considered eluard s finest surrealist achievement the collection was acclaimed as the unified exponent of surrealism s creative intentions like his exemplars baudelaire and rimbaud eluard sought to establish poetic affinities in all things to juxtapose the commonplace and the extraordinary the endless series of transcendent connections in the universe was for eluard a new kind of mysticism grossman publishers inc donated by judy sackheim 10 2011

no detailed description available for the nature of capital and income

this is the first book to provide a precise description of how companies can put purpose into practice based on groundbreaking research undertaken between oxford university and mars catalyst it offers an accessible account of why corporate purpose is so important and how it can be implemented to address the major challenges the world faces today

this book explores how person centred health care could be refined to help persons alleviate pain related distress and construct pain as a potentially positive experience rethinking pain in person centred health care is a fascinating contribution to the multidisciplinary literature on person centred health care pain and ethics traditionally western intellectual culture has downplayed the intuitive and emotional promoting instead rational natural scientific perspectives applied to pain an instrumental approach promotes the immediate and effective relief of pain due to the widespread suffering and expense it can cause however different persons experience pain in different ways and buetow moves beyond a commitment to eliminate pain to exploring how benefits of pain could include creating and managing meaning from pain rather than always looking to put pain behind them persons may flourish by moving around pain through pain into pain and above pain buetow argues that this model depends on adopting a person centred approach to health care focusing less on the condition of pain and more on mobilizing the persons who present with and manage pain this book will be of interest to professionals and academics researchers in the fields of psychology and psychiatry who have a special interest in people with persistent pain conditions it will also be an invaluable resource for physiotherapists chronic pain consultants in secondary care and gps

this book examines how pain is represented in a range of literary texts and genres from the nineteenth century united states it considers the aesthetic philosophical and ethical implications of pain as the national culture of pain progressively transformed in the wake of the invention of anesthesia
